Mr.Arafat

arfat.alive@hotmail.com | (+92) 313-2555703
Iqbal St 4 Baghbanpura, Lahore, Pakistan.

Dear Sir/Madam,

I have successfully completed my B.S. in Software Engineering and have gained hands-on experience in building and testing apps and websites. I am confident that my skills make me a valuable addition to your team.

My career journey began at a travel agency, where I interacted with people, enhancing my confidence in analyzing customer requirements.

In my role as a Software Engineer at BJS Soft Solution in Lahore, Pakistan, I honed my skills in identifying and fixing bugs, along with proficient coding in Laravel and WordPress. I also utilized my knowledge of Laravel to contribute to the development of a productivity website.

Prior to my tenure at BJS Soft Solution, I served as a Web Development & Graphic Design intern at Creation Next Software House in Lahore, Pakistan. Here, my responsibilities included bug fixing, implementing UI enhancements, maintaining pages via WordPress, and using HTML, CSS, and JavaScript for web page development. I actively participated in the development process.

These experiences as an intern provided me with the opportunity to apply my coding knowledge to develop and test products for the marketplace. At both BJS Soft Solution and Creation Next Software House, I showcased my ability to meet deadlines, maintain a strong attention to detail, and produce high-quality code. I am confident that my skills will be an asset to your company, and I look forward to discussing this position with you further.

I also performed freelancing projects.

For your convenience, I have attached a resume that provides more details about my relevant skill set, accomplishments, and experience. Thank you for considering my application, and I anticipate hearing from you soon.

Sincerely,

Muhammad Arfat

Mr.Arafat
